

TECADE®

**Specialists
in Metallic
Bridges and
Offshore**

Extensive experience, modern facilities

TECADE has been involved in manufacturing a wide range of large structures, metallic bridges and offshore products for over 25 years. We can confidently handle all kinds of projects thanks to our extensive experience, our cutting-edge technological resources, our team of over 150 professionals, and our new, modern facilities, covering over 26,000 m².

TECADE Central Plant

Our central plant is in Los Molares Seville. It has the size and technology needed to undertake any type of project successfully and to meet delivery deadlines.

We provide our customers with a complete service, including:

- Supply of all materials.
- Technical office and preparation of manufacturing and assembly plans.
- Manufacture of all types of structures in our workshops.
- Full surface treatments of manufactured structures.
- Appropriate transport to site.
- On-site assembly through to completion of the structure.

Safety and the environment Social responsibility

One of our main objectives is to communicate TECADE's values to our customers, suppliers and society as a whole. We are committed to helping the development of local communities and to protecting the environment. TECADE regards sustainable development focusing on environmental and social issues to be an inherent part of its business strategy.

We are committed to the safety and welfare of our workers through our occupational health and safety policies. This policy involves ongoing training of our staff to spread responsibility and to communicate our message that we can only end accidents at work if we are all committed to achieving this.

- 1 **ABBAS IBN FIRNAS BRIDGE** (Córdoba)
- 2 **FORMULA 1 RACETRACK BRIDGE** (Valencia)
- 3 **"Buzzard" PLATFORM**
- 4 **ELDFISK BUOYANCY TANKS** (North Sea)
- 5 **ORESUND BRIDGE** (Copenhagen)
- 6 **NALON RIVER VIADUCT** (Oviedo)
- 7 **MARO FOOTBRIDGE** (Malaga)

TECADE YARD Port of Seville

Here at TECADE we keep up-to-date with progress in the Offshore industry. This is why we have opened the TECADE YARD in the Port of Seville, a new maritime facility for oil & gas and renewable energy projects.

TECADE YARD provides covered workshops and assembly areas with direct access to loading piers for sea transport of manufactured items. In addition, large ships now have access thanks to the new PORT OF SEVILLE sluice gate

SPECIALISTS IN
METALLIC BRIDGES AND OFFSHORE

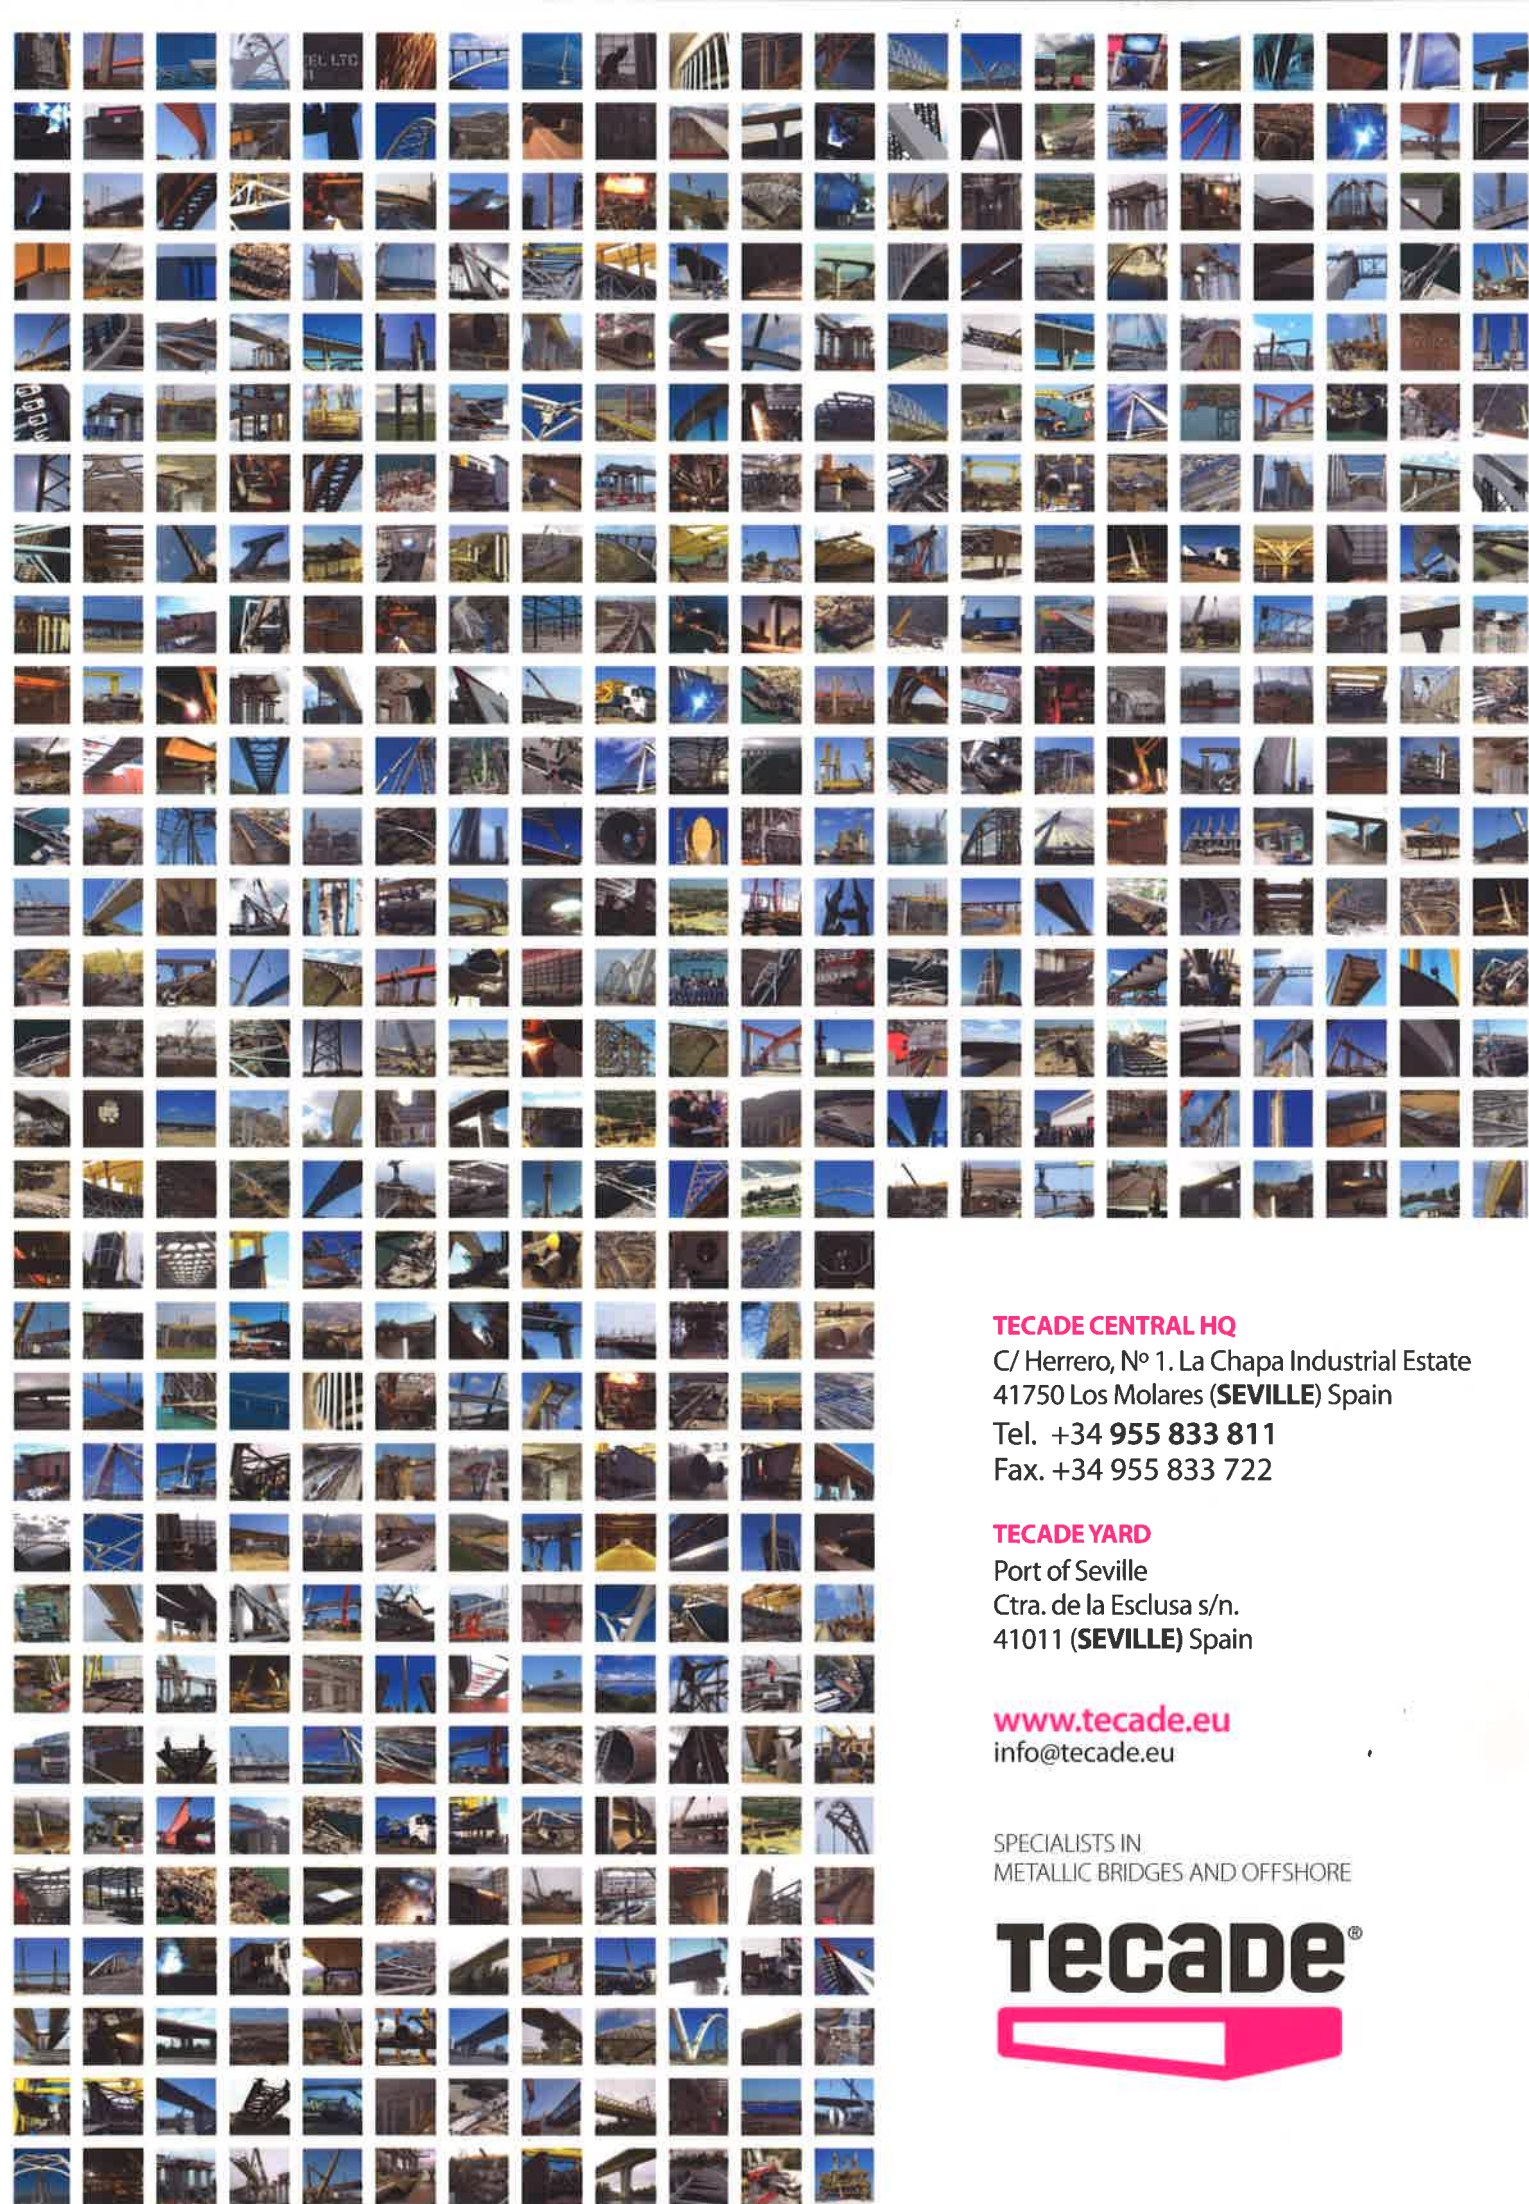

*We aim to provide our customers with the highest possible quality. This is why we guarantee that all our processes are certified in accordance with the **UNE-EN ISO 9001 : 2000**, standard. Our quality systems are regularly inspected by prestigious domestic and international bodies.
